## About

---

I am a detail-oriented software developer with a strong foundation in full-stack development, built through the Le Wagon Web Development Bootcamp. My expertise includes Ruby on Rails, SQL, and REST APIs, and I am currently expanding my skill set in React, Node.js, and Python through specialized courses. I thrive in dynamic, fast-paced environments that challenge my problem-solving abilities and encourage continuous learning. Passionate about building scalable and efficient web applications, I am eager to contribute my skills and grow within an innovative team. I look forward to the opportunity to bring value to a company and collaborate on impactful projects.

## Project Experience

---

### Full Stack Developer at Elevate App

Feb 2025

- Created an MVP educating young individuals in Latin America on early pregnancies and preventable illnesses.
- Coordinated tasks using Trello, ensuring efficient workflow and timely delivery.
- Built and tested backend systems, implementing REST APIs for authentication and chatbot responses.
- Integrated Stripe for secure payment processing for appointments.
- Utilized PostgreSQL and API integrations to streamline data flow and enhance reliability.

### Full Stack Developer at EasyCart App

Mar 2025

- Designed automated order processing workflows, optimizing system efficiency and user experience.
- Built and tested backend workflows using REST APIs for authentication.
- Collaborated in an Agile environment, working with structured workflows to enhance product reliability.
- Integrated automated processes to streamline data flow.
- Enhancing front-end design using Bootstrap for a modern, responsive UI.

### Full Stack Developer at Arose AI App

Mar 2025

- Built and launched a custom website for Arose AI, an AI agency specializing in automation solutions.
- Created engaging visuals and optimized design for a modern, responsive user experience.
- Integrated Calendly for appointment scheduling and streamlined user interactions.
- Implemented automation features for enhanced business efficiency.
- Currently adding payment integrations, such as Stripe, Voice Agent and Chatbot, to help business growth.

## Skills

---
